ABOUT ME

- Software Engineer specializing in Flutter development, UI/UX design, and responsive web applications. Experienced in building scalable digital solutions, designing intuitive user interfaces with Figma, and developing business systems using Odoo ERP.
- Passionate about creating innovative software products through clean code, modern design, and effective problem-solving.

EXPERIENCE

PROJECTS :

- REAL ESTATE MANAGEMENT SYSTEM** **2026**
Developed a Flutter-based property management platform with role-based access, property administration, and responsive user interfaces.
- DENTAL CARE MANAGEMENT SYSTEM** **2026**
Designed and developed a healthcare management application for appointments, patient records, and clinic operations using Flutter.
- EMPLOYEE MANAGEMENT SYSTEM** **2025**
Built an employee administration and complaint-tracking platform with authentication, profile management, and responsive design.
- INFORMATION RETRIEVAL SYSTEM** **2026**
Implemented indexing, preprocessing, ranking algorithms, and hybrid retrieval techniques to improve search efficiency and relevance.
- Smart Hospital ERP System** **2026**
Designed and analyzed Odoo ERP workflows for logistics, inventory management, user permissions, and healthcare operations.

TRAINING : **2023 – NOW**
